COVERED CALLS

OPTIONS INCOME STRATEGY

Covered calls put your existing stock to work by selling a call option against it, generating an added stream of income simply for owning shares you already believe in.

How Covered Calls Work

Stock Falls

Stays below the strike price

Collect the premium and roll the contract for more income later.

Stock Stays in Range

Below the call strike price

The call expires – you keep your shares & the income generated.

Stock Rises

Above the call strike

Gains are capped at the call's strike price – shares may be sold here.
